Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 3, 2007, has been entered.

Response to Amendment

2. Claims 1-25 remain pending.

Election/Restrictions

3. Claims 1-19 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on January 17, 2006.

Response to Arguments

4. Applicant's arguments filed August 3, 2007, have been fully considered but they are not persuasive.

Applicant argues:

Although Applicant maintains that such is unnecessary in that the language was clear, when interpreted in light of the specification, as to the meaning of "a coating", Claim 25 has nonetheless been amended to recite the step of providing a coating comprising a combination of a first urethane polymer having an elongation at break of greater than or equal to 500% and a second urethane polymer having an elongation at break of less than 500%, wherein the ratio of the first urethane polymer to said second urethane polymer is about 10:1 on a solids basis, and coating said fabric with said coating. It is clear that the references relied upon in the pending rejection do not teach applying a coating including this combination, nor the ratios of first and second urethane polymers claimed. Therefore, it is respectfully requested that the rejection be withdrawn.

As stated in the prior Office action (11/03/2006), while the Examiner acknowledges that the primary reference teaches two coating layers but, taken collectively, they form a single coating on the surface. This teaching continues to meet the claim limitations, as amended:

20. (Currently amended) A method of making a sunscreen fabric comprising the steps of:

providing a warp knit fabric having at least a two bar construction, and ~~coating said fabric with~~ providing a coating comprising a combination of a first urethane polymer having an elongation at break of greater than or equal to 500% and a second urethane polymer having an elongation at break of less than 500%, wherein the ratio of the first urethane polymer to said second urethane polymer is about 10:1 on a solids basis, and coating said fabric with said coating.

since one provides the claimed coating when one coats the fabric. With respect to the properties and concentrations recited, the Examiner's previous responses are incorporated herein again by reference.

Claim Rejections - 35 USC § 103

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 1762

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. **Claims 20-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yilgör et al. (US 5,521,273 A) in view of Lacy (US 3,173,189 A).**

These claims are rejected for the reasons set forth in the prior Office action and as explained above.

Conclusion

8. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
